Flow Game

The Flow Game is a process designed as a board game that creates a space for individual and collective consciousness and intelligence to emerge through reflection, dialogue and interactive learning. It is played in groups of between 4-6 players and is hosted by a flow host, just as suited for groups or teams that wish to explore a collective as well as a personal intention.

The Flow Game is a unique opportunity to give and receive wisdom on questions that are important to us, in a safe, supportive environment. Its purpose is to ground, strengthen and bring clarity and flow to you, your life, leadership and actions.

You will have the chance to explore a question that has meaning to you in your life or work right now, in the Flow Game. A host will support you during the games journey to gaining clarity.

To participate, we ask that you have a clear intention or question to explore. During the game, we'll jointly reflect and share knowledge related to your question or intention.

We laughed, thought deeply, explored and encouraged each other to step further into our questions and it was a truly magical experience! The time spent together created a deeper bond between us all as we spoke our truths; it allowed us to be fully present... It was really quite intimate, definitely special and revealed the power of the practice behind the Game!
