An important learning we have been working with is how to appreciate and honour the diversity of economic factors that would encourage people to join us in participatory leadership work. You get to decide what you consider to be a fair price, or within your training budget, and then we request that you offer a little more which could support others to attend. Help us walk our talk to assist as many willing people as possible to attend! If this is still beyond your capacity, talk to us!

\$440.00 per person - Not for profit
